

2024 National Student Auditions – International Region

RULES AND REGULATIONS

PURPOSE

- A. To offer students of member teachers of NATS:
1. Encouragement toward more diligent study in the preparation of appropriate repertoire;
 2. An opportunity to perform under conditions designed to provide the most complete and total consideration for the student, and one which will ideally combine the best elements of non-competitive and competitive performance;
 3. A specific goal, stimulating the desire and incentive for vocal and musical self-improvement;
 4. An opportunity to sing before qualified and impartial judges, and to receive careful and constructive criticism;
 5. Opportunities for public appearance by outstanding students;
 6. Recognition of achievement and talent by appropriate awards.
- B. To provide opportunities for professional growth for NATS members through the sharing of ideas, encountering new repertoire, hearing other teachers' students on an annual basis, and participating in carefully considered evaluations.

ELIGIBILITY AND PROCEDURE

- A. Any student who resides in the state of Hawaii and any of the non-US and Canada locations, currently studying with an active NATS member in good standing is eligible.
- B. If the student has been studying with the sponsoring teacher for less than eight (8) months, acknowledgment must be made of the student's former vocal study both on the application and in any public announcements. The NATS Code of Ethics provides that "It is unethical to claim as a pupil one having studied less than eight months with a teacher except where there has been no previous training."
- C. All registration and payment of fees for teachers, performers and accompanists must be done **online only** via *AuditionNow*, a newly designed audition software, at www.nats.org. Hard copies and checks are not accepted. Registration Instructions can be found here: https://www.nats.org/Library/NSA_Files/Logging_In_to_AuditionNow.pdf.

****Registration and payment of fees must be completed by 11:59pm EST on February 5th 2024****

- D. Teachers must participate in the Auditions. All teachers who enter students must attend and be available to adjudicate or to assist in the Auditions for all rounds.
- E. During registration, indicate your teacher relationship with the student being registered. Use the following "Clarifying Definitions of Sponsoring Teachers Language" when making your choice.

Clarifying Definitions of Sponsoring Teachers Language:

Primary Voice Teacher—the teacher who currently teaches a student the majority of their weekly voice lessons in an independent studio or who currently teaches the student voice lessons as a requirement or elective in an academic degree program.

Concurrent Teacher—a teacher, who in addition to a primary teacher, also currently teaches weekly voice lessons to the same student. Common examples: voice teachers addressing different genres of vocal music or having different areas of expertise desired by the students.

Supplemental Teacher—a teacher, who in addition to a primary teacher, also currently teaches voice lessons to a student on a less than weekly basis.

Former Voice Teacher—teachers who previously taught a student voice lessons within the previous eight months, who no longer teaches the student being entered. Common examples: voice teachers of students who have changed voice teachers and voice teachers of students who, after earning a diploma or degree, have begun a subsequent vocal degree program at a different institution or with a different voice teacher.

Remote Voice Teacher – the teacher currently teaching a student that resides in a different NATS chapter than the teacher. Remote Voice Teachers are considered Primary Voice Teachers unless designated as Remote Concurrent or Remote Supplemental.

Members should respect a student's prerogative to obtain instruction from any teacher(s) of their choice, including concurrent study with another teacher(s). Transparency should be maintained among all parties.

In order to maintain transparency in the registration process, **the two teachers with whom the student concurrently studies must communicate directly with one another *prior* to registering a student for a NATS audition.**

F. When registering a student, a student's age on September 1st 2023 will determine the student's category of entry along with the student's year of voice study in progress on September 1st. Students will remain in the same category(s) for an entire audition cycle – even if later in the academic year on their birthday, they age out of the category. September 1st 2023 is the first day of the current audition cycle and is designated here for that reason.

G. NO REPERTOIRE CHANGES are allowed after the registration period has closed.

H. All singers and accompanists must perform from lawful editions and observe and obey copyright laws. Please contact the Auditions Chair if you have any questions regarding copyright requirements. **Refer to the NATS Policy on Copyright Laws for more information found at https://nats.org/Copyright_Resources.html.**

I. All selections must be sung from memory except for oratorio/cantata arias. Singers may hold the music score for oratorio/cantata arias, in exception to the memorization requirement.

J. No repertoire changes are allowed once the student has sung in the Preliminary round. Should a student advance to the National Student Auditions, the same repertoire used at the Region Auditions must be sung in the National Auditions. No repertoire changes will be allowed between Region and National Auditions.

NOTE: Any student may, with the teacher's permission, choose to sing for comment only within any classification. This information should be indicated during the registration process and on the adjudication sheets. No restriction on age or length of study should apply. The student will be permitted to sing all prepared selections, provided they fall within time guidelines.

Voice Gender Classification

Students who self-identify as transgender or gender fluid must choose one audition category in Classical and/or Music Theater based on their gender identity at the time of the chapter or regional audition and select

repertoire linked and associated with the gender of that category throughout the corresponding audition season.

Treble voice singers must register for treble categories regardless of gender identity. TBB voice singers must register for TBB categories regardless of gender identity. Categories themselves are gender neutral.

As per the new National Guidelines, Countertenors are now considered Treble Voices and are therefore included in Classical categories CL3, CL5, CL7, CL9 and CL11.

Adult categories are intended for serious adult avocational musicians.

NATS teacher members who meet the requirements of a student audition category---age and years of study---may enter student auditions through the NATS member with whom they are currently studying, but they may not enter themselves in the audition.

If they enter their students in the audition, they must be available to adjudicate a category as well.

ADJUDICATION AND STRUCTURE OF AUDITIONS

The principal purpose of the Auditions is to give each student a full hearing before qualified and impartial judges, as well as the opportunity to receive careful and constructive criticism. Evaluative comments and ideas are of great value to students and teachers. Each judge should make as comprehensive a critique as time allows, acknowledging achievement and encouraging improvement. Comments that would be embarrassing to the teacher or discouraging to the student must be avoided; no one should be criticized to the point of humiliation or defeat. Since the Auditions are important to the participating students who have made a significant investment in time, energy, and money, the experience should be positive and rewarding. The real competition is between the student and his/her own self-image or self-imposed goals. The preparation for the Auditions and the written constructive criticisms are far more valuable than any award or honor given to the student.
